CONTENTS OF VOLUME 38

Acheson, R. M. and **Dearnaley, D. P.** Some constituents of the urine of normal and schizophrenic individuals. Part II, 503.
Adamkiewicz, V. W., Fitko, R. J., and **Fortier, A. A.** Hypoglycemic drugs and the dextran 'anaphylactoid' inflammation, 823.
Adie, P. A. See McPhail, M. K., 935, 945.
Akabane, Y. See Takahashi, Y., 1149.
Allen, C. E. See Dow, D. S., 1471.
Anastassiadis, P. A. Combined estimates in colorimetric determinations with high variability, 1223.
Anderson, D. G. and **McCalla, A. G.** Sedimentation of crystalline globulin from cucurbit seeds, 275.
Anderson, D. G., McCalla, A. G., and **McCalla, D. R.** Electrophoretic properties of crystalline globulin from cucurbit seeds, 657.
Aprile, M. A. See Moloney, P. J., 1216.
Arboit, T. See Isler, H., 703.
Armstrong, J. E. See Larsen, B. A., 813.
Axelrad, A. See Siminovitch, L., 425.
Baer, E., Buchnea, D., and **Grőf, T.** The chromatographic separation of homologous phosphatides, 853.
Baer, E. and **Grőf, T.** Synthesis of L-α-cephalins containing fatty acids of shorter chain length. Water-soluble glycerolphosphatides II, 859.
Baichwal, R. S., Baxter, R. M., Kandel, S. I., and **Walker, G. C.** Antifungal action of salicylanilide. II, 245.
Bain, G. O. *With the technical assistance of* **Van Kessel, M.** Agglutinin responses to *S. typhi* H antigen in intact and sublethally irradiated mice following the intraperitoneal injection of homologous spleen cell suspensions, 621.
Baker, D. G. Electrolyte metabolism in the rat exposed to a low environmental temperature. II, 205.
See also Clark, G. M., 320.
Bauld, W. S. See Goldzieher, J. W., 233.
Bauld, W. S., Givner, M. L., Engel, L. L., and **Goldzieher, J. W.** The fluorescence of eight natural estrogens in sulphuric acid, 213.
Baxter, R. M. See Baichwal, R. S., 245.
Beare, J. L. See Murray, T. K., 663.
Beare, J. L., Murray, T. K., and **Campbell, J. A.** Responses of two strains of rats to rapeseed oil and corn oil, 187.
Beaton, J. R. Metabolic effects of urea administration on acute hypothermia in rats, 709.
Beaton, J. R. and **Hunter, J.** Therapy of acute hypothermia with special reference to urea. A preliminary report, 305.
Beck, I. T., Pinter, E., McKenna, R. D., and **Griff, H.** The selective proteolytic enzyme inhibitory action of benzethonium chloride, 25.
Bélanger, L. F. See Bois, P., 585; Cipera, J. D., 807.
Beveridge, J. M. R. See Kuksis, A., 95; Valberg, L. S., 365.
Bidwell, R. G. S. See Larsen, B. A., 51.
Biely, J. See Wood, J. D., 19.
Birmingham, M. K., Kurlents, E., Lane, R., Muhlstock, B., and **Traikov, H.** Effects of calcium on the potassium and sodium content of rat adrenal glands, on the stimulation of steroid production by adenosine 3′,5′-monophosphate, and on the response of the adrenal to short contact with ACTH, 1077.
Bogoch, A. See Daniel, E. E., 777.
Bois, P., Byrne, E. H., and **Bélanger, L. F.** Effect of magnesium deficiency on the regeneration of mast cells after treatment with 48/80 in rats, 585.
Bone, D. H. and **Hochster, R. M.** An anomalous tricarboxylic acid cycle in *Acetobacter melanogenum*, 193.
Booyens, J. and **Hervey, G. R.** The pulse rate as a means of measuring metabolic rate in man, 1301.
Boyd, C. E., Boyd, E. M., and **Deyette, A. A.** Loss of weight and lipid shifts in organs of the digestive tract of tumor-bearing rats in relation to tumor size, 673.
Boyd, E. M. See Boyd, C. E., 673.
Branion, H. D. See Gray, J. A., 435.
Brown, S. A., Towers, G. H. N., and **Wright, D.** Biosynthesis of the coumarins. Tracer studies on coumarin formation in *Hierochloë odorata* and *Melilotus officinalis*, 143.
Buchnea, D. See Baer, E., 853.
Burr, L. H. and **McLennan, H.** The apparent extracellular space of mammalian skeletal muscle. A comparison of the inulin space in normal and dystrophic mouse tissues, 829.

Butt, W. D. and **Lees, H.** The biochemistry of the nitrifying organisms. Part 7. The phosphate compounds of *Nitrobacter* and the uptake of orthophosphate by the organism, 1295.
Byrne, E. H. See Bois, P., 585.
Calaresu, F. R. and **Jaques, L. B.** Thrombocytopenia in the experimental production of hemorrhagic death by multiple factors, 1275.
Campbell, J. A. See Beare, J. L., 187; Middleton, E. J., 865; Morrison, A. B., 467; Murray, T. K., 663; Stainer, D. W., 1219.
Campbell, J., Green, G. R., Schönbaum, E., and **Socol, H.** Effects of exposure to cold and of diet on coenzyme A levels in tissues, 175.
Campbell, J., Green, G. R., and **Socol, H.** Effects of exposure to cold on acetylation in the rat, 171.
Carroll, K. K. Effects of diet on incorporation of acetate-1-C^{14} into cholesterol by rat liver slices, 649.
Champagne, M. and **Smith, D. B.** Degradation by hydrazine of bovine plasma albumin and lysozyme, 715.
Chang, V. M. and **Idler, D. R.** Biochemical studies on sockeye salmon during spawning migration. XII. Liver glycogen, 553.
Chefurka, W. Studies on the inhibition of the mitochondrial ATP-ase by reduction of the respiratory chain, 1195.
Cipera, J. D., Migicovsky, B. B., and **Bélanger, L. F.** Composition of epiphyseal cartilage. I. Changes in hexosamine and acetone extractable contents of epiphyseal cartilage of rachitic chicks following administration of vitamin D_3, 807.
Clark, G. M. and **Baker, D. G.** Radiation, the cellular approach, 320.
Clarke, D. W. See Forbath, N., 13.
Cohen, J. J. See Hobkirk, R., 769.
Cole, E. R. See Dalby, A., 1029.
Cole, E. R., Dalby, A., and **Mertz, E. T.** Partial purification of bovine antiplasmin (antifibrinolysin), 1021.
Coleman, I. W., Little, P. E., and **Grant, G. A.** The induction of methaemoglobinemia as an adjunct to therapy for tabun poisoning, 667.
Oxime mixtures and atropine in the protection of mice and rats from sarin poisoning, 1035.
Colhoun, E. H. Acetylcholine in *Periplaneta americana* L. IV. The significance of esterase inhibition in intoxication, acetylcholine levels, and nervous conduction, 1363.
Collier, H. B. See Tsen, C. C., 957, 981.
Common, R. H. See MacRae, H. F., 523.
Constantopoulos, G. A simple automatic stimulation timer, 395.
Crevier, M. See Dowd, G. F., 989.
Dalby, A. See Cole, E. R., 1021.
Dalby, A., Cole, E. R., and **Mertz, E. T.** Studies on the purification of bovine plasminogen (profibrinolysin), 1029.
Dale, D. G. See MacRae, H. F., 523.
Dales, S. Effects of anaerobiosis on the rates of multiplication of mammalian cells cultured in vitro, 871.
Dandiya, P. C., Johnson, G., and **Sellers, E. A.** Influence of variation in environmental temperature on the acute toxicity of reserpine and chlorpromazine in mice, 591.
Daniel, E. E. *With the technical assistance of* **Renner, S. A.** The activation of various types of uterine muscle during stretch-induced contraction, 1327.
Daniel, E. E., Wachter, B. T., Honour, A. J., and **Bogoch, A.** The relationship between electrical and mechanical activity of the small intestine of dog and man, 777.
Darcel, C. le Q. *With the technical assistance of* **Klassen, H. C.** Paper electrophoresis of sera and plasma from chicks affected with erythroblastosis, 383.
Das, B. C. Effectiveness of yeast, vitamin B_{12}, and alternative treatments on survival of Indian carp during the early period of life, 453.
Davies, R. O., Marton, A. V., and **Kalow, W.** The action of normal and atypical cholinesterase of human serum upon a series of esters of choline, 545.
Dearnaley, D. P. See Acheson, R. M., 503.
Denyes, A. and **Horwood, R. H.** A comparison of free adrenal cortical steroids in the blood of a hibernating and non-hibernating mammal, 1479.
Depocas, F. *With the assistance of* **Secours, V.** The calorigenic response of cold-acclimated white rats to infused noradrenaline, 107.
Deyette, A. A. See Boyd, C. E., 673.
Dingle, J. R. and **Hines, J. A.** Proteins in fish muscle. 16. Adenosinetriphosphatase activity of cod myosin and actomyosin, 1437.
Dow, D. S. and **Allen, C. E.** Steady-state oxidation of glucose in the diabetic rat, 1471.
Dowd, G. F. and **Crevier, M.** A simple capacitor transducer for measuring blood pressure in small experimental animals, 989.

Dresel, P. E. *With the technical assistance of* **Negrych, S.** Blockade of some cardiac actions of adrenaline by dichloroisoproterenol, 375.
Dryden, E. E. See Manery, J. F., 1281.
Duffield, J. C. See Manery, J. F., 1281.
Du Ruisseau, J.-P. Acetylaspartic acid and ammonia poisoning, 763.
Du Ruisseau (Duruisseau), J.-P. See Mori, K., 919.
Elcoate, P. V. See Millar, M. J., 1457.
Engel, L. L. See Bauld, W. S., 213; Goldzieher, J. W., 233.
Fagerlund, U. H. M. and **Idler, D. R.** Marine sterols. VI. Sterol biosynthesis in molluscs and echinoderms, 997.
Fazekas, Á. Gy., Fazekas, I. Gy., and **Rengei, B.** Experimental examination of the mechanism of pyramidon effect. III. Effect of high pyramidon doses on the glutamic acid – oxaloacetic acid transaminase activity in serum, 899.
Fazekas, I. Gy. See Fazekas, Á. Gy., 899.
Ferguson, R. B. See White, F. D., 443.
Findlay, D. See Hurst, R. O., 347.
Fischer, M. I. See Millar, M. J., 1457.
Fitko, R. J. See Adamkiewicz, V. W., 823.
Forbath, N. and **Clarke, D. W.** Factors influencing the distribution of pentoses in the isolated rat diaphragm, 13.
Fortier, A. A. See Adamkiewicz, V. W., 823.
Foster, T. S. See Willmer, J. S., 1387, 1393, 1399.
Fox, S. M. See MacLeod, R. A., 693.
Fried, J. See Perlman, D., 393.
Genest, J. See Sándor, T., 739.
Giguère, R. See Lamarche, G., 1159.
Giuffre, N. See Jackson, P. W., 1377; Perlman, D., 393.
Givner, M. L. See Bauld, W. S., 213; Goldzieher, J. W., 233.
Godin, C. Amino acid – protein interactions, 805.
Goldzieher, J. W. See Bauld, W. S., 213.
Goldzieher, J. W., Bauld, W. S., Engel, L. L., and **Givner, M. L.** Recording spectrofluorometers: Two new designs and their evaluation, 233.
Gordon, E. R. and **Kalant, H.** Modifications of the assay for small amounts of antidiuretic hormone, 1380.
Gorin, P. A. J. See Spencer, J. F. T., 157.
Gorin, P. A. J., Haskins, R. H., and **Spencer, J. F. T.** Biochemistry of the Ustilaginales. XIII. Observations on the structure and biosynthesis of 4-O-β-D-mannopyranosyl-D-erythritol, 165.
Biochemistry of the Ustilaginales. XIV. Bioassimilation of L-erythrulose into 4-O-β-D-mannopyranosyl-D-erythritol, 953.
Gornall, A. G., Grundy, H. M., and **Koladich, C. J.** Studies on aldosterone. III. Chronic effect on the blood pressure of rats, 43.
Gowdey, C. W. Cardiac output in acute experimental methemoglobinemia, 1411.
Grant, G. A. See Coleman, I. W., 667, 1035.
Gray, J. A., Olsen, E. M., Hill, D. C., and **Branion, H. D.** Effect of a dietary lysine deficiency on the concentration of amino acids in the deproteinized blood plasma of chicks, 435.
Green, G. R. See Campbell, J., 171, 175.
Griff, H. See Beck, I. T., 25.
Gróf, T. See Baer, E., 853, 859.
Grundy, H. M. See Gornall, A. G., 43.
Gyenes, L. and **Sehon, A. H.** Preparation and evaluation of polystyrene–antigen conjugates for the isolation of antibodies, 1235.
The use of polystyrene–allergen conjugates for the removal of antibodies from sera of allergic individuals, 1249.
Habeeb, A. F. S. A. The sulphydryl content of β-lactoglobulin, 269.
A new reagent for the guanidination of proteins, 493.
Habeeb, A. F. S. A. and **Smith, D. B.** The amino acid contents of horse globin and of its component polypeptides, 263.
Harpur, R. P. and **Waters, W. R.** Production of carbon dioxide and volatile acids by muscle from *Ascaris lumbricoides*, 1009.
Haskins, R. H. See Gorin, P. A. J., 165, 953.
Hawkins, K. See Hosein, E. A., 837.
Hawkins, W. W. See Larsen, B. A., 51, 813.
Heacock, R. A. and **Mahon, M. E.** A note on the paper chromatography of some indole acids and their derivatives, 1500.
Héon, M. See Lamarche, G., 1163.
Héroux, O. Mitotic rate in the epidermis of warm- and cold-acclimated rats, 135.

Héroux, O. and **Willmer, J.** Respiratory rate (Q_{O_2}) of isolated liver of white rats exposed to summer or winter outdoor environmental conditions, 1215.
Héroux, O. *With the technical assistance of* **Wright, D.** The effect of intermittent indoor cold exposure on white rats, 517.
Hervey, G. R. See Booyens, J., 1301.
Hill, D. C. See Gray, J. A., 435.
Hines, J. A. See Dingle, J. R., 1437.
Hobkirk, R. and **Cohen, J. J.** Some aspects of the enzymic hydrolysis of urinary 17-ketosteroid conjugates, 769.
Hochster, R. M. See Bone, D. H., 193.
Hochster, R. M. and **Nozzolillo, C. G.** Respiratory carriers and the nature of the reduced diphosphopyridine nucleotide oxidase system in *Xanthomonas phaseoli*, 79.
Honour, A. J. See Daniel, E. E., 777.
Hori, A. See MacLeod, R. A., 693.
Horwood, R. H. See Denyes, A., 1479.
Hosein, E. A. and **Smart, M.** The presence of anserine and carnosine in brain tissue, 569.
Hosein, E. A., Smart, M., and **Hawkins, K.** Aminoaciduria in rats after treatment with the ethyl ester of gamma-butyrobetaine, 837.
Hudson, A. J. and **Kini, M. M.** The preparation and some metabolic properties of rat spinal cord slices, 965.
Hull, A. R. See White, F. D., 443.
Hunter, J. See Beaton, J. R., 305.
Hurst, R. O. and **Findlay, D.** The action of pancreatic deoxyribonuclease on oligonucleotides from calf thymus deoxyribonucleic acid, 347.
Ibrahim, R. K. and **Towers, G. H. N.** Studies of hydrangenol in *Hydrangea macrophylla* Ser. I. Isolation, identification, and biosynthesis from C^{14}-labelled compounds, 627.
Idler, D. R. See Chang, V. M., 553; Fagerlund, U. H. M., 997; Reiner, E., 1499; Tsuyuki, H., 1173, 1177.
Idler, D. R., Schmidt, P. J., and **Ronald, A. P.** Isolation and identification of 11-ketotestosterone in salmon plasma, 1053.
Isler, H., Nadler, N. J., Arboit, T., Johnston, N., Peter, W., and **Tucker, E.** Thyroid enlargement produced by prolonged administration of iodine in the mouse, 703.
Israels, L. G. See Zipursky, A., 727.
Jackson, P. W. See Perlman, D., 393.
Jackson, P. W., Giuffre, N., and **Perlman, D.** Growth of Ehrlich ascites tumor cells in tissue culture, 1377.
Jaques, L. B. See Calaresu, F. R., 1275.
Johnson, G. See Dandiya, P. C., 591.
Johnston, N. See Isler, H., 703.
